Quest International's CEO Joins Membership of University of California - Irvine's Chief Executive Roundtable and as a Corporate Board Member for UCI Applied Innovation

IRVINE, Calif., July 10, 2018 – [Quest International, Inc.](#), a global leading service provider specializing in depot repairs, field services, and supply chain logistics for device manufacturers, announced today the strategic involvement with the University of California Irvine. Quest's CEO, Shawn Arshadi joins UCI Chief Executive Roundtable and UCI Applied Innovation Corporate Board. Rooted in Irvine, CA for the past 30 years, Mr. Arshadi joined UCI corporate leadership to give back to the community by contributing his expertise and to help bridge the business community to academia.

"UCI, over the years, has realized its pioneering vision to bridge the gap between education and business communities to bi-directionally help each other." Shawn Arshadi, President & CEO states, "It's an honor to be a part of UCI's drive to establish a world-class entrepreneurial ecosystem to support job creation and economic growth in Orange County."

As a trusted partner for many prominent medical device companies, Quest over the years has become proficient in various technologies of medical devices ranging from Class I to Class III in diagnostic imaging, cardiology, ophthalmic, in-vitro and other medical segments. By supporting original equipment manufacturers with supply chain logistics, depot repairs, field services, returns/recall management and other operations segments, Quest understands and executes best in class operations process and efficient practices. Quest's vision is to provide consultative support for startup or scale-up companies as they focus on research & development and go-to-market strategies of their innovative products.

About Quest International
