Quest International Provides Healthcare Centric IT Managed Services Solutions

IRVINE, Calif., August 9, 2018 – [Quest International, Inc.](#), a global managed service provider, announced today the roll out of its comprehensive yet turn-key [IT Managed Services](#) specializing in the healthcare industry. With the rise of ransomware projected to reach \$1 billion from \$24 million in 2016, there is an imminent need to protect patient data as well as the healthcare businesses from losing not only patient confidence but also loss of revenue and potential liability of non-compliance to HIPAA regulations.

[Quest International's primary IT managed services include:](#)

- Cybersecurity & Ransomware Prevention
- Network & Server Security Management
- Business Continuity & Disaster Recovery
- 24/7 Help Desk & Remote Monitoring Management
- Network Operation Center (NOC) Services
- Cloud Services
- 3rd Party Onsite Hardware & Data Center Management
- HIPAA & PCI Compliance Solutions

“The financial impact of information technology in any business is quite taxing” states Perry Aminzadeh, CFO of Quest International. “It’s always a challenge to mitigate risk and cost to onboard the latest technology while optimizing existing infrastructure investment. Like many CFO’s, it’s a careful balance between IT expenses and investments for the growth of your business as well as having the right preventative measures.”

Quest’s dedication to provide cost effective and customized IT managed services especially in the healthcare industry will help to combat cyber-crimes while optimizing our customer’s information technology infrastructure. Technology changes and advances dynamically. Quest’s expertise in cutting edge technologies from hyper-converged networks to software defined mediums, we are ready to assess and customize the right network to suit our customer’s needs.
