Quest International Announces Additional Medical Device Proficiencies – Ophthalmic & Dental

IRVINE, Calif., September 18, 2018 – [Quest International, Inc.](#), a global leading service provider specializing in depot repairs, field services, and supply chain logistics for medical device manufacturers, announced today the additional proficiencies of Ophthalmic and Dental technologies. Over the years, Quest has on boarded and have become experts in various [Class I, II and III medical devices](#) in the following areas: In Vitro Diagnostics, Cardiology, Radiology, Diagnostic Imaging, Orthopedics, Endoscopy, and now Ophthalmic & Dental. To list a few product categories, Quest has successfully serviced Angiography, Bioscience, Cryogenic, Diagnostic Displays, Infusion Pumps, Parasitotic Pumps, Biopsy Devices, RF Generators, Laser Surgery Tools, Lab Water Systems, Cell Separation Equipment, Liquid Chromatography, Cardiac Mapping, Cardiac Output Computers and more. Quest has recently added Lens Analyzers, Glaucoma Testers, Retinal Imagers, Dental Intraoral Systems, Motor Controllers and Cone Beam Computed Tomography (CBTC) to its field of expertise.

With state-of-the-art, temperature and humidity controlled repair centers and warehouses, Quest continues to provide a comprehensive suite of services to medical device manufacturers more efficiently. From field services, depot repairs to supply-chain logistics, Quest understands the complex engineering behind bio-medical devices to not only execute our service delivery but also provide root cause failure analysis, customer training by clinical application specialist (CAS) and recall management on behalf of its clients.

“One of the most exciting elements of being technology neutral medical device support partner is that we are given wide exposure to numerous technology segments within healthcare verticals.” John Estona, Director of Quality states “we are fortunate to have a team of technologists and engineers to support our clients and ensure their customer’s satisfaction.”

About Quest International
