With high luminance, high contrast, and an integrated color calibration function — the LED backlit 6MP CCL650i2 30" color LCD provides a seamless viewing area equivalent to two 3MP displays, reducing the burden on your eyes. The wide screen of the CCL650i2 also enables you to effectively and efficiently allocate multiple desktop windows. This 6MP display saves space with a smaller footprint compared with two 3MP displays.

### Luminance Stabilizing System λ-Sentinel

The luminance sensor in front constantly monitors and accurately stabilizes luminance on the screen to optimize image quality.

### Dual link DVI & DisplayPort

2-port DVI or DisplayPort will drive the CCL650i2 with 'off the shelf' graphics cards. 10-bit shades\* of grayscale or 1 billion colors are simultaneously displayed via DisplayPort.

\*Customized viewer software and graphics card are required to display 10-bit images.

### Diversified Utility

Multiple system configurations can be accommodated with two Dual link DVI and two DisplayPort interface.
